PROFESSIONAL SUMMARY

Freelance full-stack developer with 6+ years of hands-on experience building mobile applications, web platforms, backend APIs, SaaS products, and custom business software. Specialize in React Native, React.js, Node.js, JavaScript, TypeScript, and REST APIs. Work directly with clients from requirements and solution planning through development, integrations, testing, deployment, and ongoing support.

CORE EXPERTISE

Mobile Development

React Native, Expo, Android, iOS, Cross-Platform Applications

Web Development

React.js, TypeScript, JavaScript, HTML, CSS, Redux, Responsive UI

Backend & APIs

Node.js, Express.js, REST APIs, Authentication, Authorization, RBAC

Data & Cloud

MongoDB, MySQL, Firebase, Supabase, AWS, S3, EC2

FREELANCE EXPERIENCE

Freelance Full-Stack Developer | Self-Employed · Remote | Mar 2020 – Present | 6+ Years

- Deliver end-to-end software development for startups, businesses, agencies, entrepreneurs, and individual clients.
- Build cross-platform Android and iOS applications using React Native, including authentication, API integration, notifications, maps, payments, and business workflows.
- Develop responsive web applications and business platforms using React.js, JavaScript, TypeScript, and Node.js.
- Design REST APIs and backend services with Node.js and Express.js, including authorization, database operations, validation, and business logic.
- Build SaaS platforms, e-commerce solutions, CRM/ERP workflows, admin dashboards, customer portals, and internal business tools.
- Work directly with clients to understand requirements, shape workflows, plan technical solutions, and deliver features around business priorities.
- Manage the full development lifecycle: requirements, UI, backend, API integration, testing, debugging, deployment, and maintenance.
- Integrate payment gateways, Firebase, Google Maps, push notifications, cloud services, and third-party APIs.

SELECTED DEVELOPMENT EXPERIENCE

Mobile Applications — Event booking, e-commerce, workforce management, service booking, and business productivity applications.

Web Applications — Business platforms, marketplace-style applications, B2B systems, booking platforms, dashboards, and customer portals.

Backend & APIs — REST APIs, authentication, role-based access, database integration, payments, notifications, and third-party services.

SaaS & Business Software — Multi-user platforms, admin systems, CRM/ERP workflows, internal tools, and custom software.

Deployment & Support — Production deployment, application testing, bug fixing, performance improvements, maintenance, and ongoing feature development.

FREELANCE SERVICES

- React Native Mobile App Development — Android & iOS
- React.js Web Application Development
- Node.js Backend & REST API Development
- SaaS & MVP Development
- E-commerce & Business Applications
- Admin Dashboard & Internal Tools
- Payment, Maps, Firebase, Notifications & Third-Party Integrations
- Application Maintenance, Bug Fixing & Feature Development

TECHNICAL TOOLKIT

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frameworks: React Native, React.js, Next.js, Express.js, Redux, Expo

Backend & APIs: Node.js, REST APIs, GraphQL, Authentication, RBAC

Databases: MongoDB, MySQL, PostgreSQL, Firebase, Supabase

Cloud: AWS, S3, EC2, AWS Lambda, Firebase

UI & Tools: Tailwind CSS, Bootstrap, Figma, Postman, Git, GitHub, Axios

DEVELOPMENT PROCESS

01 Discovery Understand requirements, target users, priorities, and scope; turn ideas into clear technical direction.

02 Architecture Plan database structure, API design, application architecture, integrations, and technology choices.

03 Development Build clean, modular mobile and web interfaces with secure backend services and regular client communication.

04 Launch & Support Test, deploy, resolve issues, support production releases, and continue improvements after launch.

FREELANCE AVAILABILITY

Available for project-based development, contract work, startup MVPs, remote development, long-term client engagements, application maintenance, and feature development.

LET'S BUILD SOMETHING GREAT.

Open to freelance projects • Contract work • Remote partnerships
